After you enter these cheat codes in the game Cooking Fever Gems and Coins, you can get all in-app purchases for free. This cooking fever hack is used by many players, so it's the best way to hack Jewels and Coins Cooking Fever. If you're not WeetIn Cooking Fever, the name is the program: The creation of glorious main courses and desserts is now part of your everyday life. In the time management game you will find yourself behind the stove. Many hungry guests find their way to you every day. Show you what a talented chef is in you and spoil the waiting people with memorable menus. More than 100 ingredients are available for more than 250 dishes to choose from. The of the individual dishes are, of course, predetermined and must be to, allowing the guests to leave your store completely satisfied and come back soon. Attention: If you pause the customers for too long, they leave your store and won't be able to see it again so quickly. Returning to the Cooking Fever - Ultimate Strategy GuideHow to get more cooking fever GemsCoins and gems (some people call these diamonds) is earned during the course of playing the game. Coins are pretty easy to acquire once you have several restaurants open, but gems in Cooking Fever seem to come along much slower. It can be very frustrating, especially when you're still open early in the game with only 2 or 3 restaurants. The internet is full of websites that claim to have a cheat or a hack to get unlimited free gems. The developers fixed the cheat used to exist in the game, and there are no safe hacks you can install; you need to know that you could potentially download a possible virus or malware onto your device. Of course, you can buy gems directly from Google Play. This is the only real way to cheat and the only way the developers of this big game make money. But if you want to try to play without spending your own money, there are still ways to build up enough gems. Return to the game daily for your Welcome Back reward; after day 7 you receive 2 gems a day daily from consecutive play. (XP = Experience points, shown at the top right of the screen); each time you progress to a higher an experience level, you will receive coins and gems. You initially receive 2 gems and will maximize at 7 gems per level advance. You should try to increase your XP level at least once a day. Click here for more details on experience points. Play the casino immediately after demanding your Daily Revenue from restaurants; place \$500 bets until you have 15 gems. Thanks to Duo Kom'ça , we now know that you can win 15 gems twice a day (exactly every 12 hours apart) in the casino. You'll need between 5000 and 25,000 coins to hit 15 gems in the morning (it appears to be about 18,000 Coins on average) and between 25,000 and 80,000 to hit 15 gems in the evening (the average appears to be about 55,000 Coins needed). It's harder to earn the 15 gems on days when the game offers reduced prices for purchasing gems or other specials. The Casino becomes available at XP Level 7.As you combine this strategy, you can earn up to 39 gems per day (2 for return, 7 for promoting XP level, and 30 of casinos – if played exactly 12 hours apart). We only play the casino twice a day as we super low on gems, because of the huge amount of coins needed to play the casino twice a day. We generally only play the casino once a day and play a restaurant until we promote our XP level, which we get 24 gems a day. If you're just starting out the game, have less than 15 XP and just a restaurants, spare yourself a lot of frustration and just focus on getting your 2 daily gems for opening the game and replaying levels to increase XP at twice a day. You can get almost as many gems by raising your XP (plus you get more coins), than if you used all your coins to try and win gems in the Casino. Play the Casino is better stored for when you lose many coins (20,000+). (20,000+).
